In re: KZKL(FM), Wichita Falls, TX
Educational Media Foundation ("EMF")
Facility ID No.: 55381
BPED-20081208AEM

Dear Applicant:

This letter is in reference to the above-captioned minor change application to change the transmitter location, effective radiated power and antenna height. For the reason stated below, the application will be dismissed.

An engineering study of the application reveals that it fails to comply with 47 C.F.R. § 73.525 with respect to TV Channel 6 Station KAUZ-TV, Wichita Falls, Texas. Specifically, § 73.525(d)(2) states the NCE-FM application must include a certification that the applicant has coordinated its antenna with the affected TV station. In addition, pursuant to § 73.525(d)(2), the applicant must indicate if it is proposing an antenna employing the same number of antenna bays as the affected TV Channel 6 station, with the antenna radiation centers separated by no more than 30 meters vertically, or if the FM vertical pattern will not exceed the TV vertical pattern by more than 2dB. In Exhibit 19 of the application, it is stated "EMF certifies that it will coordinate the design of its antenna with KAUZ-TV." However, the application fails to provide the specific antenna design information required by § 73.525(d)(2). This constitutes an acceptability defect.

Accordingly, Application File No. BPED-20081208AEM IS HEREBY DISMISSED, pursuant to 47 C.F.R. § 73.3566(a), as unacceptable for filing. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Arthur E. Doak

Arthur E. Doak
